12in LP Etching

TPTI-CUL-FILM

NOTE: Etching art should be set up as 1c Black and as vector for best results. The visible 1c Black art is what will be etched into the vinyl record, while the white background will remain untouched.

-  **BLEED** • extend background art to this line
-  **CUT**
-  **SAFETY** • keep all important elements inside this line
-  **LABEL LINE** • indicates the area covered by a standard 100mm diameter center label (optional)

DELETE TEMPLATE
BEFORE SUBMITTING

- Art must be a **minimum of 300dpi**.
- Art should be set up as 1c Black. The Black areas will be etched. *Do not use RGB.*
- Important text and graphics should be inside the Safety line.
- Submit final art as **high-resolution PDF with the Template layer turned off.**

DO NOT ALTER this template.
